Stars: HUGH JACKMAN, PAUL ROBERTS, BILL FRAYERS, IAN RICHARDSON, JILL DRECH, BARBARA JEFFORD

An unusual Shakespearean film in that the play itself forms the script... hardly a word was changed as Peter Hall and the Royal Shakespeare Company put the classic fantasy on screen. Set in forests only a few miles from Stratford, Hall has made a film both understandable and rewarding.

"Lear" is a difficult work to translate to the screen... it is full of hidden motives and irrationality that challenge both actors and director. Scofield gives full range to Lear's raging moods and tragic life, while Irene Worth as Goneril does justice to the difficult part.

It was 18 years ago that Elliot Mintz introduced Jack Gariss to the airwaves of KPFK. The times were the anti-war activist and psychedelic years of the middle Sixties. Jack was disturbed by the onslaught of pop mysticism making its way through the 'hippie' community, paving troubled paths for young people desperate for explanations and grounding. The guest appearance was 'successful' and Jack was asked back to do a late night program entitled "The Mystic Circle". And heard regularly, after midnight, emanating from the headshops and hangouts and in the homes of countless acidheads, potheads, hippies of all ages were discussions of the history, mythology, and experience of the religious and mystical traditions of the world. The importance of these early broadcasts cannot be overestimated. The avant garde of the generation; young people desperately seeking new and expanded realities were able to find a deep and understanding connection with some of the oldest and greatest cultural traditions of the world rather than drifting off into some small tributary of consciousness to be marooned on a psychedelic island.

"The Mystic Circle" became "The Mystic Way" and then "The Wayless Way" as Jack expanded the program content to include, sometimes predominantly, experiential exercises of various traditions, providing not only intellectual-historical content, but the inner experiences of various paths. The audience grew to include not only young seekers, but older people, academics, various types of therapists, scientists, doctors and people of all styles of life. Jack began research in the field of biofeedback, becoming a pioneer in the field and the leading and perhaps only bio-feedback practitioner to utilize this fantastic child of the union of science and mysticism for pure exploration and not just for therapy and learning. KPFK's listeners went along for the ride years before public knowledge, much less acceptance of this technology.

Occasional gatherings of Jack's listeners blossomed into "The Bio-Meditation Society", and groups of interested people were able to experience biofeedback exploration for themselves.

FLOWERS FOR CENTRAL AMERICA SPECIAL

Flowers for Central America is a six hour KPFK cultural program followed by a three hour party/celebration with live dance music. On January 21, 1984, from 3 to 9p.m., a brilliant and diverse multi-cultural group of writers, poets, actors, and musicians will present their art on the air (see schedule below) as part of a nationwide statement by artists opposing U.S. intervention in Central America. The program will also include Central American poetry and music, and a special report by Deena Metzger on Nicaraguan theater, following her December visit there. The visual arts of Central America will be represented at this event with a powerful exhibition of Nicaraguan posters organized by Carol Wells.

This radio special was organized by the Writers, Music, and Performance Committees of L.A. Artists Call Against U.S. Intervention in Central America. L.A. Artists Call is part of Artists Call International, a network of European and American artists, which

has organized a week long series of art events against U.S. military policy in Central America, culminating January 22nd, the International Day of Solidarity with the people of El Salvador. Originating in Paris, Artists Call has spread throughout the U.S., linking artists in New York, San Francisco, Seattle, Washington, D.C., and other cities. National Security Advisor Robert McFarlane has stated that the U.S. will support an invasion of Nicaragua by other Central American Countries, while Congress and the press is abuzz with rumors that such an invasion is imminent. Thus it becomes even more urgent to speak out against the escalating U.S. intervention. This event becomes both an entertaining and artistic pleasure and an important political statement.

Flowers for Central America will be fun too! Following the six hour cultural program, there will be an in-studio dance from 9 to 12p.m., so please listen, and bet-

ter yet, please attend either some or all of this very special day of programming. Come and meet, dance and party with Los Angeles' finest poets, writers, performance artists, and musicians.

Come to Studio Z, at KPFK, 3729 Cahuenga Blvd West, North Hollywood, on Saturday, January 21st.

'1984' DUE TO AIR ON KPFK IN JANUARY

George Orwell's political prophecy, *1984*, is the Morning Reading this month. Winston Smith, Big Brother, Room 101, and all other chilling trappings of totalitarianism will be heard through the voices of Charles Morgan and June Foray.

Although Orwell originally intended the book to be titled '1948,' the publisher persuaded him to set it further into the future. But now that future is the present, and a disturbing number of the elements which make *1984* non-fiction today are in place. Among them, 'newspeak' ('Grenada was a rescue mission, not an invasion.'—Ronald Reagan, November, 1983). and wars to take the public mind off the real situation.

Don't miss this political thriller, on the Morning Reading, Monday through Friday at 11:30a.m.

GUATAMALA SPECIAL TO AIR JANUARY 31st

These days we are learning much about the U.S. Administration's intentions toward Central America, especially El Salvador and Nicaragua. Yet we know little about Guatemala, the largest, wealthiest, and strategically most important country in the region, better than half of whose population is Indian and who, even as you read this, is desperately exploited, oppressed, terrorized and massacred by Guatemala's military.

El Tigre del Norte, a play with music by Jacqueline D. Tunberg, dramatizes the ways the U.S. military establishment works with Guatemala's government to deceive and manipulate the Indians in order to control lands rich in oil and mineral resources, and areas of important military significance. The play focuses on the experiences of Flavio, a 'Kekchi' Indian who innocently becomes involved with the U.S. Marines and is used by them to try to persuade his people to move from their traditional lands to an infertile place far away. At the last moment, Flavio understands the folly of such a course of action and the tragedy implicit in it. He realizes that the only solution to his people's problems is the revolutionary work of the Guerrilla Army of the poor and the other insurgent groups.

Staged readings of this play were sponsored by the San Diego Public Theatre. The readers are students from San Diego State University, and actors and musicians from San Diego Community Theatre: Bart Scheer, Mark Mauricio, Xavier Ravelo, Delia Ravelo, Patrick Burke, Kevin Dixey, Raul Ramos, Marty Gardella, Joyce Constanza, Felicitas Nunez, Mike Ewing, Kerry Glaze, Mel Goot, Guy Gonzalez, and Vicki Zamora. The play will be broadcast January 31, 1984, from 6:40 to 8:30p.m. Don't miss this important new work.

GARRIS

Continued from page 3

After a brief hiatus in 1971-2, during which Jack devoted full time to the exploration of biofeedback technology, designing and creating his instrument for the purpose, "Bio-Meditation", returned to KPFK. The explorations and exercises continued, and Jack further established himself as a radical pioneer by 'arranging' and bringing in the first negative ion generators to the United States for public use. The public, of course, consisted of listeners wise enough to take advantage of their availability. This international smuggling operation was completed as Jack personally carried the first case past the customs officials, and safe, free into the USA. The instruments are now legal and FDA approved.

Programs

Programs take on a life of their own as they lead and follow the programmer. The explorations began to include detailed and fascinating excursions into the fields of physics, biology, astronomy, sociology, and many other areas and 'Bio-Cosmology' was born and in a two hour format. Two years ago, Jack decided to take some time off from the program, to

the consternation of many listeners.

As noted by the lack of a photo, Jack is a private person. His life history includes formal training in Catholic, Jewish and Melanesian Shamanic traditions, activism in the Union movement in the 30's, inspired by Upton Sinclair, and work as a Hollywood writer, including working for DeMille. (In fact, Jack helped write 'The Ten Commandments'-- but, unfortunately, just the movie, not the original ones.) His wife and helper Jeanette produces the program with him but prefers to remain in the background ('where the fun is) to the consternation of many 'feminists'.

Behind the scenes, Jack and Jeanette have offered advice and encouragement to many of the staff and volunteers over the years. Their presence on the programming staff evokes knowledge, depth and compassion as well as a lifelong deep and abiding concern for the freedom of the individual to find and explore his own path.

Only Jack, if anyone, knows what Bio-Cosmology will bring to the airwaves in 1984. But we are ecstatically or peacefully happy to welcome him back beginning Sunday morning, January 29, 1984.

We are grateful to Ian Masters for giving up (albeit gratefully) an hour of "National Security" to allow for the return of the Garisses.

Report to the Listener

Jim Berland,
General Manager.

Mutually assured destruction... benign neglect relocation camps... trickle-down... limited nuclear war... separate but equal... peace through strength... protective reaction... revenue enhancement program...

Now, more than ever, KPFK provides one of the few alternatives to the *newspack* which is creeping into the commercial media and many other institutions.

1984 is also KPFK's 25th year of broadcasting (July 26th to be exact). It is the year of the Olympics. It is Pacifica's 35th Anniversary. It is time for a new beginning.

newspack—the language mandated by Big Brother in George Orwell's brilliant novel *1984* which will be KPFK's *Morning Reading* during the month of January.

Our Fund Drive, beginning January 10th and going to the 27th, and which will have the *1984* theme, will present all of us with the opportunity to greet this year with power and enthusiasm. In spite of the controversies surrounding the station during the past couple of years, KPFK has survived and entered 1984 poised for new progress. As a result of agreement with the KPFK workers Union, we are posting for hire four critically important staff jobs. Our ability to attract people of skill, talent, and commitment will determine much for the coming years. We will be hiring a Program Director, a News Director, a Public Affairs Director, and a Music Director.

Welcome to 1984.

As a result of an agreement signed with the KPFK Workers Union last February, which included a freeze on new hiring, we were seriously delayed in making these hires.

While there remains some work to be done to complete the entire contract,

enough has been ratified and agreed upon to allow us to proceed with the posting of the jobs.

If you are interested in any of these positions, please send a stamped, self-addressed envelope to KPFK: Employment, Box 8639, Universal City, CA. 91608 and request the Job Descriptions and further information on how to apply. The deadlines for the first round of our search is February 1, 1984. If we need a longer search to find the right people, we will reopen after that date.

On December 13th, the Station Board of KPFK met to make the recommendation to the President and the National Board of Pacifica on my tenure as Manager. It adopted a report by a vote of 26 to 3, recommending that I continue. At this writing, that recommendation is yet to be acted on by the President or Board. In spite of the uncertainty of my future, I am encouraged greatly by the actions of the Board. There is no question that it is the most representative Station Board in the history of KPFK. If this Board is supported by Pacifica, it will provide a firm foundation for a stable and progressive station during the remainder of the 1980's. (Board members are listed in the Folio masthead. A brief background is available by writing with a SASE to KPFK Board, Box 8639, Universal City, CA. 91608).

As a result of our increased unity within the station, reflected in the Board's action and recent statements from the Union, volunteer programmers, and Collective Latinoamericano, we are looking forward to the Fund Drive as an opportunity to speak with the thousands of listeners who do not get the Folio, who do not subscribe. We enlist your support as well, in giving extra and enlisting your friends as supporters of the station.

If you are interested or concerned by the public controversy surrounding

KPFK in the past few months, and have not found *Report to the Listener* (in the Folio and on the air) sufficiently informative, please let me know. There are immense amounts of information available dealing with every aspect of the Controversy.

As I have stated many times, it is my belief that most of our listeners care deeply about what is heard on KPFK, how we are doing as Pacifica Radio, and less about how we function internally. But those of you who do care and are concerned have a right to information. I have chosen not to burden the Folio (and add the additional cost) to print in full some important documents. Documents that are available for public dissemination include the report and conclusions of the KPFK Station Board on the *Evaluation of the Manager*, my letter to the L.A. Weekly, explaining the events of the past year and the impact on finances.

Further, I urge you to write your opinions for publication in the Folio.

The return of Jack Gariss and the rescheduling of *National Security* should strengthen both areas of programming. It represents a wonderful cooperation of programmers in a mutually beneficial change. Ian Masters had already requested to have only one hour on Sunday and to be rebroadcast on the *Morning Magazine*, when Jack indicated his desire to return to the air. Such is the occasional good fortune of KPFK. I would also like to welcome *African Peoples' Commentary*, which will be heard Wednesdays at 6:45 p.m. Jim Burford's *Senior Citizen Report* has moved to Tuesday at 6:45.

Check the highlights section for further details, and for those of you who have joined us since the departure of Jack Gariss, catch up by reading *At the Mike*.

Finally a word on the continuing activities of The Committee to Save Free Speech Radio. This group has spearheaded the efforts to remove

me as Manager of KPFK, and to return Clare Spark as Program Director. The case of Clare Spark is closed for all of Pacifica. It was reviewed by due process and the termination was affirmed at every level. Any other grievances resulting from disciplinary action against any staff member should be handled under those procedures provided. An evaluation of the performance of the manager has been conducted, and will be conducted again by those bodies with the legal responsibility to do so: the Station Board, the President and the National Board of Pacifica. There is room for discussion on-the-air of policies of the station, the condition of the station's finances and organization, which relate to the performance of the entire staff of the station, as well as to the manager. The Committee to Save Free Speech Radio is welcome to take part in such discussions, like all Pacifica listeners and subscribers, write letters to the Folio, call *Report to the Listener* on the

air, make presentations to the Station Board, write to the National Board or President.

All of these avenues have been afforded The Committee and they have not used them. Because they do not accept the outcome, they persist in a public campaign which can only injure the station. To provide air-time for those who have demonstrated an unwillingness to accept the Pacifica processes, would be to undercut the ten year long commitment to build those processes. Sustaining Pacifica radio has never been an easy struggle, but I believe that we are approaching a plateau of stability that belies the charges made by The Committee.

In spite of the many obstacles, we will begin 1984 with our new Transmitter system at full power. A burned out transformer will be replaced the week of December 20.

A new telephone system was installed, saving us money each month, a new Union contract signed, and a reorganization of staff which should provide better functioning and higher salaries... and new income from Sub-Carrier leases... These are major accomplishments, especially in the face of disruptive opposition.

With all of this in place, we will be able to turn our full attention to the continued improvement of our programming, the fulfillment of our goal for a multi-cultural, multi-racial radio station that speaks consistently to the human commitment of peace, justice and democracy.

by **UNCLE RUTHIE BUELL**

with Marcia Berman, Dave Zeitlin, John Bucchino,
E. Marcy Dicterow-Vaj & Hank ("Bones") Kahn

While all ages will enjoy all the songs on this album, the songs on **SIDE ONE** are especially suited to movement, singing, and the development of a positive self-image for the child of pre-school and elementary age. The songs are easy to learn and full of fun and whimsy. **SIDE TWO** touches humorously and dramatically upon such sensitive subjects as babysitters, siblings, friendships, depression and family relationships. These songs will appeal to the older child as well as to adults.

ACTIVIST FILE

One thing KPFK has always needed is a centralized, up-to-date file of activists and their organizations. Staff and volunteer programmers have come and gone—and so has access to their contacts, address books, and rolladexes. Work on such a file has begun. This form has been developed so you'll know what information we'd like to have. If you or your organization want our programmers to know about you, please fill it out and send it to KPFK c/o Activist File. Thanks!
